

Resources: Below is a list of suggested resources for you to use as you begin learning about your site.

- **Geology:**

- Elevation: http://elevation.maplogs.com/poi/chittenden_county_vt_usa.12721.html
- Bedrock, Surficial Geology, Soils: <http://www.uvm.edu/place/burlingtongeographic/maps/index.php> (open the interactive map, click on “natural” tab)
- Common rocks in VT info: <https://dec.vermont.gov/geological-survey/vermont-geology/staterx>

- **Forest composition**

- For Tree ID and basic info: Forest Trees of Maine
- For detailed info on species: https://www.srs.fs.usda.gov/pubs/misc/ag_654/table_of_contents.htm
- Eco-indicator species: See the list from *Reading the Forested Landscape* in this Blackboard folder

- **Land use history:**

- Assigned selections from *Reading the Forested Landscape*
- Historical maps: <http://www.uvm.edu/place/burlingtongeographic/maps/index.php> (in interactive map, click on the “historical” tab)
- Special Collections at the UVM library: <http://researchguides.uvm.edu/centennialwoods/history> (many of these resources are only available by going to Special Collections in the basement of the library)

- **Wildlife and habitat:**

- Biofinder website (for habitat features and more): <https://anr.vermont.gov/maps/biofinder>
- Mammals: <https://vtfishandwildlife.com/learn-more/vermont-critters/mammals>
- Birds: <https://www.allaboutbirds.org/guide/search/> and <http://vt.audubon.org/birds>
- Amphibians and reptiles: <https://www.vtherpatlas.org/herp-species-in-vermont/>

- **Additional resources:**

- ANR atlas (includes interactive map): <https://anr.vermont.gov/maps/nr-atlas>
- UVM Centennial Woods Research Guide - <http://researchguides.uvm.edu/centennialwoods>
- Topo maps with some neat overlays: www.caltopo.com
